School Overview

Moorooka State School is a co-educational school catering for students in Prep to Year 6. The school is enriched with diverse educational programs and a teaching/support staff dedicated to improving outcomes. In the past 2-3 years we have seen great improvements in literacy across the school, and we are proud of these achievements. We also boast a very supportive parent body who support the school's endeavours to improve outcomes. We celebrate a rich diversity of cultures: some 24 languages are spoken by our students. Harmony Day is a highlight of our community involvement. The school and the community are enriched by the cultural diversity within the school, in helping us better understand and value people. We focus on traditional values and high standards. Many of our students achieve academic excellence. Our strong tradition of sporting and performing arts participation and excellence is evident in achievement and representation at District, Regional, State and National levels. Students are involved in a wide variety of co-curricular interests. Our School Chaplain is a valued part of the team supporting our school community. Moorooka keenly seeks positive parent-teacher partnerships, as these underpin the role of parents as co-educators of children. The school seeks active engagement with the local community. The range of facilities, programs, resources and community participation encapsulate our motto: Moorooka State School: Where great things happen.

Principal's Foreword

Introduction

School Progress towards its goals in 2017

As we continue our excellent progress since our last school review in 2016 the team has maintained a narrow and sharp focus on the implementation of our reading improvement agenda. This agenda continues to be communicated to all staff and community members. Teachers, teacher aides and students are able to identify reading improvement as the priority of the school and can discuss how the improvement agenda has improved their practice.

In 2017 the leadership team utilised the research of Fischer, Frey and Hattie's 'Visible Learning for Literacy' and 'Text Dependent Questioning' to develop curriculum plans that ensured a rigorous focus on supporting our student's literacy development in the upper two bands (U2B, A students). This extension and enrichment program has a specific focus on critical and creative thinking which links directly to the Australian curriculum general capabilities. The leadership team also researched a new approach to the teaching of phonological awareness in the Early Years through the very well regarded SSP program. Both of these initiatives will continue to be a focus in 2018.

To support staff development towards our improvement agenda of reading the principal takes an active role in undertaking learning walkthroughs across all classrooms. These learning walks are undertaken during the literacy block and have focused on guided reading instruction. Teachers articulate their participation in learning walks and comment that they appreciate the feedback they receive.

The school has established a positive culture and there is a feeling of optimism in the school. The leadership team has developed their capacity as instructional leaders and have focused their work on improving the capacity of teachers to implement quality curriculum with a focus on English and reading.

Future Outlook

We are ensuring a continued focus on the school's philosophy of education and its core values around improving literacy outcomes for all students. In moving from 2017 to 2018 our focus will include ensuring the provision of human resources to:

- provide additional support to students through continued teacher aide allocation in literacy blocks
- provide literacy and curriculum support to classroom teachers through the employment of a Literacy Coach and Head of Curriculum

Our literacy program will continue to be a high priority on the agenda: we will be specifically looking at the delivery of quality teaching of reading through our new Text Dependent Questioning for the U2B students and SSP in the Early Years.

Characteristics of the Student Body

Overview

Enrolments have fluctuated slightly since our year 7's went to high school. Prep enrolments at the end of Term 4 2017 were at 50. We have continued to utilise local marketing means to encourage enrolment in the school. Facebook features greatly in our marketing strategy.

It is anticipated the enrolment growth will continue on its upward trend in the next 5 years. Students attend Moorooka State School from both the local area and from surrounding suburbs. Moorooka is well known for its cultural diversity. We do have a small number of transient students who may enrol in our school but need to enrol elsewhere due to family movement and distance prevents them from continuing. In general students who enrol at Moorooka stay enrolled.
