Choosing the right school for your son’s or daughter’s education is one of the most important decisions a family can make. Moorooka State School has the care and support of an extended family. Every child in our school is important to us and we work hard to ensure they are happy, active, involved and challenged in their academic progress.

Moorooka State School offers your child a well balanced curriculum. We have concentrated on developing literacy and numeracy programs to enrich the learning outcomes of our students. Our NAPLAN results have continued to strengthen, but what’s more important is the growth our students experience in the overall teaching and learning process: they are outstanding!

When you visit our school, you will see first hand how the variety of learning environments allow staff to ensure students are actively involved in their learning. We have welcoming classrooms, a huge hall including music and keyboard rooms, two computer labs, a well resourced library, science lab, art/drama workroom, several play areas, and extensive outdoor learning areas. Our oval is spacious and we also have a pool, so everyone can learn to swim!

At Moorooka State School ICTs have been made a priority. Staff and students have access to a range of technologies to enhance learning. An interactive whiteboard has been installed in every classroom. Over 140 Apple iPads, 30 iPods and a range of laptops are utilised by the staff and students on a daily basis.

Our resource centre and most classrooms have been completely refurbished, and we have updated our courtyard area using softfall to make it fun and safe. We have provided your children with spacious learning environments designed for 21st Century education. We pride ourselves in keeping the grounds looking great.

Our teachers have been implementing the National Curriculum since 2012. We ensure our curriculum is differentiated to meet the individual needs of all students (those requiring extra support and those with gifts and talents). For our upper school students we ensure a smooth transition into their secondary education.

There are so many great things that happen at Moorooka State School. Every day in our school is a joy and we know you will also be delighted to send your child here.

Every day at Moorooka is open day. We invite you to come and discuss more fully what our school has to offer you and your family. You are welcome to visit any day, or come along to one of our special information sessions this term.

The staff and students from Moorooka State School

I love coming to Moorooka because I am learning to read.
Blessing - Prep

Moorooka is fun and very exciting because you learn lots of new things that you don’t know. I think the teachers are really caring as well.
Amaya - Year 3

I really like the teachers at Moorooka and I have great friends.
Levi - Year 6

I like that we have chickens.
Abby - Prep

Our principal always drops into our classes to say hello.
Olivia - Year 6

We have lovely teachers here and I have friends from around the world.
Maddison - Year 6

I love my teacher, she makes learning fun!
Isabel - Year 4

I love playing in our big playgrounds.
Jack - Prep
